HARDY PERENNIAL FLOWER SEEDS

For Spring and Summer Sowing

ALL FLOWER SEEDS SENT POSTPAID**PLEASE DO NOTE!**

 All seed packs contain a liberal amount of seed. If you have a large garden, the most economical way to buy seeds is in bulk: 1/16 oz. and up, where so quoted.

In comparing competitive prices be assured that you get fewer and often inferior seed at the lower prices.

To grow high grade seeds takes more care and skill, and costs more money, but it certainly pays in the end to buy only such seed. This refers particularly to Delphinium, Columbine, Primroses, Pansies, Sweet Peas and Zinnias.

Fresh the seeds must be, of course, and be assured ours are. Buying old or inferior seeds is a waste of money and time. No seed order for less than 25c, please.

PUDOR'S DREAM. Still one of the finest Delphiniums I have. Everyone marvels at the great beauty of a well grown clump. It is an early bloomer. The 3½-inch blossoms on a perfect stalk are very double, of an exquisite shade of azure blue and pink with a small white bee or center. 1 pkt. (approx. 200 seeds) \$1.25; ½ pkt. 65c. For August delivery. No Spring seed available. Only 1947 Seeds available August 1st.

WHITE DELPHINIUMS, "PUDOR'S WHITE PACIFIC STRAIN". Vigorous tall growing, mildew proof with large double glistening, pure white blossoms. 2½ to 3 inches in diameter. Centers are pure white, some cream, sometimes coal black (a mere chance). You must expect some blue rogues among the seedlings. All the plants are strong and vigorous and are true perennials, not apt to die after their first blooming season. You will get a few blues in a lot and all the whites will not have black bees. Please remember this when your plants begin to bloom. **Per pkt. \$1.25; ½ pkt. 75c; 1/16 oz. \$3.00** (over 600 seeds).

Portland, Aug. 30

About 50% have bloomed. 1 pkg. of PYRETRUM I have enough plants for two 15 ft. rows. The seed of the BLACK EYED WHITE DELPHINIUMS I received this year, they were up within 10 days after I planted the seed." ABOUT FLORAL DISPLAYS IN YOUR GARDEN

Mr. J. J. Graham, Assistant Superintendent of Manchester Parks, England, in "Gardening Illustrated," says among other things:

MASS EFFECT

"I believe in mass effects, in a blaze of color that irresistibly attracts and draws.

"I would like to see a more free use made of **Canterbury Bells**.

"Have you ever tried well grown pink cup and saucer **Canterbury Bells** over a ground work of Catmint? If you can spare a large bed for this you will obtain an effect that is charming in every way. I believe in large beds for almost anything; in fact, large beds are essential if a brilliant display is aimed at.

"There is nothing to beat the **Viola** as a carpeting plant for Roses. **Violas** intensify the colors of the Roses, and all things considered, add greatly to the general effect. I know of no finer floral display than a bed of Caroline Testout Roses carpeted with blue or purple **Violas**.

"A border of 15 varieties of **Eschscholtzia** (California Poppies) was much admired last year, particularly one bright Sunday when the whole border was a dazzling mass of open flowers; the foliage continued fresh and green long after the flowers faded."

VIOLAS or TUFTED PANSIES

ARKWRIGHT RUBY. Novelty. One of the most distinct of all the bedding Pansies or **Violas**. The flowers are borne in great profusion. Delightful rich ruby-red flowers. Seeds will always be scarce as the plants are very shy seeders. **Per pkt. 25c; 3 for 70c; 1/16 oz. \$1.25.**

CHANTREYLAND. Masses of beautiful flowers in rich apricot shade, tinted orange toward the center. A better Sutton's Apricot. **Per pkt. 20c; 1/16 oz. \$1.00.**

KING HENRY (Purple King). Flowers 1 inch in diameter cover bushy plants 6 inches tall, during a long season. A deep purple violet with lighter center and yellow eye, an effective contrast. **Violas** have a much longer flowering season than Pansies, and will flower all summer if the faded blossoms are picked off. **Pkt. 15c.**

CHINESE BLUE. A round faced type such as Jersey Gem and Chantreyland. Color a so-called French blue, nearest substitute to the famous "Maggie Mott". (By the way, the latter does not bear seeds.) **Pkt. 25c 1/16 oz. \$1.25.**

SPLENDID LARGE FLOWERED MIXTURE. Ruby, bronze blue, golden yellow and many unusual shades. Special formula blend of only large flowered **Violas**. **Per pkt. 20c; 1/16 oz. 75c.**

AUNT MARY’S SWEET CORN

Again I offer this grandest and sweetest of all Sweet Corn on the market. — ORDER EARLY! There is never enough to fill late orders.

Never was sweet corn that tasted as sweet. It will stay in good condition for table use for two or three weeks. It stays in milk so long that natural ripening is impossible; ears that were ready for table use in October were still in milk when hard frosts killed the plants in November.

BY ALL MEANS GIVE THIS SWEET CORN A TRIAL THIS YEAR AND YOU WILL COME BACK FOR MORE NEXT YEAR. Make your first planting during May two weeks apart; make another one the second week in June, another the last week in June, and the last planting the first week in July, and this will furnish you sweet green ears in early October.

We have had reports from customers having the ears for table use for Thanksgiving. They had made late plantings of seed in June and July.

PRICE OF SEED. Enough for 50 to 75 hills 25c. 3 PACKS for 70c, ½ pound will produce approximately 500 plants and cost 70c, postpaid, West of the Rocky Mountains; 75c postpaid, East of the Rocky Mountains.

SPECIAL PRICE BY THE POUND. West of the Rockies, \$1.30 postpaid; \$1.40 East of the Rockies.

BY EXPRESS, charges collect, \$1.25 per pound, anywhere.

 Hundreds of customers in all sections of the U. S. feel likewise. 

Mebane, N. C., Jan. 23, 1946.

“Your ‘Aunt Mary’s’ Sweet Corn is ‘Tops’ and I am planting that alone. It’s everything you claim for it. Will want to order again for 1947. Save it for me.”

Mrs. P. L. C.

Medford, Oregon, Jan. 25, 1946.

“We have enjoyed AUNT MARY’S SWEET CORN 2 years now and are using it from the freezing lockers and it is very fine.”

Martha H.

FINEST SWEET PEAS FOR EARLY SPRING OR FALL PLANTING

NOVELTY "SPRING FLOWERING" SWEET PEAS

This new type will be a great boon to amateur gardeners throughout the country and particularly in warmer climates and where the hot summer weather plays havoc with the late and early flowering type of Spencers. A fine MIXTURE of the 12 BEST "EARLY FLOWERING" SWEET PEAS. **Per pkt. 15c; per ½ oz. 30c; 1 oz. 50c.** (1 ounce to 30 foot row.)
